A MESSAGE FROM OUR FOUNDER

Dear Friends, Partners and Supporters

Year 2018 has presented Bulir Padi Foundation with a huge challenge. A challenge for overall organizational growth, as well as individual growths as well. A non-profit organization will never be sustainable without a consistent and strong Vision and Mission which will take it forward throughout the many Programs it will manifest itself into. And I believe that Vision alignment is the foundation for a non-profit's sustainability, ensuring that the Organization's Vision for Education Inclusivity for the Marginalized Community

is always at the heart of everything we do. Moreover, ensuring that every single person working in our organization not only understand our Vision, but also share the same while internalizing it in their daily lives.

In 2018, we consistently focused our Programs under the pillars of *Belajar untuk Maju*, *Membaca untuk Maju* and *Bekerja untuk Maju*. One of the main highlights for this year has been working together with UPS Indonesia in building our Center for Excellence “Rumah Ide” as part of our very first women empowerment project. We are hoping this humble community center will become a symbol of hope to empower the women in the community. Secondly, as we congratulate the graduates of 2018, we are reminded once again of our Vision/Mission and impacts. Surely there is no arguing that social impact happens with scale. But I also believe that there is something to be said of making impact with quality rather than scale. We are proud of being able to help shape our target beneficiaries in reaching their potentials in becoming self-sufficient human beings.

Lastly, the most important highlight of 2018 is the reason why this year, I believe, is the most defining year for our journey. This year, we had the courage to step back, allowing the space and time for reflection and review- of our Vision and Mission, our relevance, the beneficiaries, our Programs, as well as the Impacts we have made. I truly believe that this year provided us with the foundation for our future growth and sustainability. Year 2018 marked as the huge momentum and leap we are to make in the next years to come. I can't wait for what the future holds for Bulir Padi Foundation and the many more beneficiaries' lives it will touch!

Tia Sutresna
Chairwoman
Bulir Padi Foundation

Working together with UPS Indonesia in building our Center for Excellence

VISION
MISSION

Yayasan Bulir Padi (Bulir Padi) is a Jakarta based non-profit organization launched in 2002 that helps children from low-income families by providing them with scholarships and access to better education. These scholarships are given based on the GPA grades and it is our objective to empower Bulir Padi Foundation scholars to develop into responsible adults and contribute positively to the welfare of their families and communities in the long run.

Bulir Padi's vision is to provide the necessary education for under-privileged kids in order to develop trust and confidence in them. We also aim to plant a positive mind-set for them so that they could develop to become independent individuals with self-confidence.

STRATEGIC WORK PILLARS & PROGRAMS

Handwritten notes in a notebook, including a table with columns and rows, and some diagrams.

SCHOLARSHIP PROGRAM

- Provide incentive based scholarships based on academic GPA and financial background to children of low-income families.
- Ensure these kids go to school and stay off the streets, so they can grow up into confident and self-sufficient individuals in order to improve their families' quality of life.
- Help low-income community, including single mothers, who are struggling financially to pay for their children's tuition fees.

SCHOLARSHIPS ARE GIVEN BASED ON THE SCHEME BELOW:

AVERAGE GRADE ON STUDENT'S REPORT CARD	BULIR PADI SCHOLARSHIP SUBSIDY (IN %)
Less than or equal to 5,9	50%
6,0 - 7,9	75%
8,0 - 10,0	100%

Each sponsor receives regular semester-based updates on the academic performance of his/her sponsored child(ren).

2

MEMBACA UNTUK MAJU

PUSTAKA BULIR PADI

To support literacy in marginalized communities, Bulir Padi Foundation set up public libraries Pustaka Bulir Padi in Palmerah, West Jakarta in 2012 and Bidaracina-Otista, East Jakarta in 2015. These two libraries continue to serve around 700 families in the communities where we operate.

GERAKAN ANAK CINTA BUKU

This program aims to increase literacy and reading proficiency among children of marginalized communities. In addition, GACB runs activities to help develop a child's love for books and sharpen his/her critical thinking skills.

Activities include sharing sessions on making reading plans, creating a book club, a literacy event talk show, and selection of "Reader of the Year" award among GACB participants. The program is held at Pustaka Bulir Padi.

3

BEKERJA UNTUK MAJU

CAPACITY BUILDING WORKSHOPS AND TRAININGS

Gemilang

A soft skills training program as part of our efforts to empower our kids and communities around them. The focus of these workshops is for career guidance, finance and bank management in order to help kids to provide them with the necessary skills to make them prepared and ready for work as they graduate from middle school and high school levels.

"English for Confidence" (EFC)

This program was launched in May 2017 to develop confidence in the kids in using the English language. The focus on the teaching method is to ensure that the kids have a fun and entertaining way of learning English. This program is run with the help of our volunteers who also contributed in making a lesson plan for EFC.

Pemuda Peduli

This program aims to support positive character development among Bulir Padi Foundation students. Our objective is not only to produce academically sound students but also individuals with positive characters who care and will contribute back to their own community.

Program activities are aimed at middle and high school students and include social mapping and Tour the Kampung, as well as a group challenge to develop ideas on how to improve their surrounding community.

Berdaya Berkarya

This program is made possible by a grant from The UPS Foundation and is aimed at women in the marginalized communities where we operate. Many of the program participants are mothers of Bulir Padi Foundation students.

The objective is to build a woman's capacity to determine her own future and become a positive agent of change within her community. Activities include training and coaching by volunteers to help on these topics: Confidence Building, Business Awareness and Planning, Marketing & Distribution, and Financial Literacy. Participants are encouraged to work in groups and submit a business plan of which are reviewed and judged by an expert panel comprised of volunteers that include a university marketing professor, CEO of an Indonesian digital marketplace company, and a senior banker.

Bidikmisi

A mentorship program to help our Bulir Padi Foundation access and apply for the Government's university scholarship Program – Bidikmisi.

Our Program Manager and volunteers serve as guides for students who are interested to pursue a higher education at a university level and therefore are in need of help in terms of coaching as well as navigating the Bidikmisi application process.

**MORE
COMMUNITY
INITIATIVES**

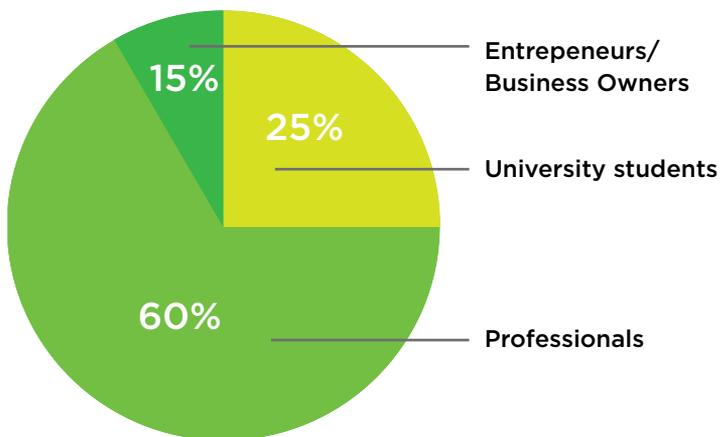

RUMAH IDE BULIR PADI CENTER FOR EXCELLENCE

This year Bulir Padi Foundation was able to build a training center in our location of operations at Bidaracina, East Jakarta with the help of a grant from The UPS Foundation. This training facility serves as a base for Bulir Padi Foundation to run training workshops and programs that will benefit our scholars and the community.

KELUARGA SEHAT

Milk is one of the main sources for important vitamins and calcium that is what is by kids to receive the correct nutrition, especially for kids who are from a financially unstable family. Ever since November of 2013, we provide milk and food to 60 young children from PAUD and posyandu for marginalized families located in RW 03 Palmerah, West Jakarta and RW01, East Jakarta.

SERVING THE
COMMUNITY
WITH HELP
FROM OUR
VOLUNTEERS

All of Bulir Padi Foundation's programs will not be possible without the help and support of our volunteers.

In 2018 as many as 60 volunteers have helped us run our education programs for Bulir Padi students, such as Gemilang, as well as our community, such as Berdaya Berkarya.

MAKING A
POSITIVE
IMPACT IN OUR
COMMUNITY

Bulir Padi Foundation provides scholarships to marginalized children in Palmerah, West Jakarta and Bidaracina, East Jakarta. Our student graduation rate is 99%.

Meet our alumni: Rosnelly

Rosnelly is the third child of five siblings. Her parents run a small shop to help provide for the family. She was enrolled in Bulir Padi Foundation's Scholarship Program between 2000 - 2006.

"I feel that Bulir Padi Foundation has helped my family so much by providing me with a scholarship to continue school and obtain a high school diploma," said Rosnelly.

Rosnelly's parents are proud of her accomplishments today. As an alumni of the Bulir Padi Foundation, she has built her career in the same company that she joined upon completing high school in 2006. Rosnelly started working at CV Sari Rasa Nusantara as a waiter, and over the years she continued to excel to become a team leader, supervisor and restaurant manager. Her hard work has paid off and she currently works as an area manager for the company.
